IAFE (INTERNATIONAL ASSOCIATION OF FAIRS AND EXPOSITIONS)

CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE Code of Show Ring Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

- 1) All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership, and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
- 2) Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
- 3) Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
- 4) Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of, consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in an event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event.

If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory, to which it is sent, is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise.

At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.

- 5) Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hoofs or horns of animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal, is prohibited.
- 6) The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
- 7) Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
- 8) No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
- 9) The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
- 10) The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including Fairs and Expos and any special notices to members.
- 11) The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

Animal Health Regulations for Fairs and Shows in Wisconsin

2023 Season

This is a summary of animal health requirements for fairs, shows and exhibitions. They are not necessarily the same as requirements for importing animals into Wisconsin or moving them within the state for other purposes. They may change if animal diseases occur in Wisconsin or elsewhere, so always check datcp.wi.gov or contact us for current information. Fairs or exhibitions may have additional requirements. Exhibitors should contact the event organizers for more information. Ref. s. ATCP 10.87, Wis. Admin. Code.

General Requirements for Show Organizers

All fairs or exhibitions of any length must obtain, review, and keep for five years all required records and test results:

- Exhibitor's name and address
- Animal identification (number, type, description, and, when required, official identification (*see requirements for different animals below*))
- Documents showing compliance with disease testing and other health requirements
- Livestock premises number, if any, where animals originated
- Documentation showing legal importation to the event (if applicable) and, when required, movement to the event (*see requirements for different animals below*)
- For swine, a record of any swine transported directly to a slaughtering establishment
- For swine, a record of any swine transported to an animal market where all animals sold at the market sale for that day were shipped directly to a slaughtering establishment

Fairs or exhibitions lasting more than 24 hours must appoint a licensed veterinarian to inspect all animals daily.

Note: Except in specific circumstances, if an animal already bears an official 840 eartag, that eartag must not be removed and additional official eartags must not be applied. Instead, the existing eartag must be read and recorded when a record of that animal is required. (Ref. s. ATCP 10.045, Wis. Admin. Code)

These regulations apply to all fairs and exhibitions, including additional events (like rodeos, shows, or other organized events) that occur in conjunction with the fair.

Diseases

Animals that show evidence of having contagious or infectious diseases may not be commingled (or housed/kept) with other animals at a fair, show, or other exhibition in such a way as to allow disease to spread. Such animals should not attend the fair, show, or exhibition. Animals may be denied entry if they arrive at these events with contagious or infectious diseases, isolated and/or removed if they develop disease after arriving, or be subject to other action as would be necessary to control disease. (Ref. s. ATCP 10.08(1), Wis. Admin. Code)

Bovine animals with ringworm, mange, warts or scab will be removed from the fair or exhibition premises, unless the veterinarian in charge finds warts or ringworm lesions are incapable of transmitting disease.

Cattle and Bison

Cattle from within Wisconsin have no requirements for tests or health documents.

Cattle from outside Wisconsin (Ref. s. ATCP 10.22, Wis. Admin. Code) must:

- Be accompanied by certificate of veterinary inspection (CVI or health certificate)^a documenting official animal identification (ID) and all required tests and certifications
- Have official individual ID (including steers)^b
- Meet all of Wisconsin's normal requirements for import ([see https://datcp.wi.gov/Pages/Programs_Services/CattleBison.aspx](https://datcp.wi.gov/Pages/Programs_Services/CattleBison.aspx))

Acceptable animal IDs^b for all cattle from outside Wisconsin

- USDA metal ear tag number that is part of the National Uniform Eartagging System (NUES) (starts with state 2-digit code, also known as "brite" tag); this includes the orange brucellosis vaccination tag
- 15-digit "840" tags (visual or RFID)
- Valid only if applied before March 11, 2015:

Manufacturer-coded RFID tag - 15-digit number with the first three digits in 900s American ID tag - 8 to 12-digit number prefaced with "USA"

Brucellosis requirements for cattle from outside Wisconsin

No cattle from outside Wisconsin are currently required to be brucellosis tested or vaccinated to come to fairs and shows in Wisconsin

Tuberculosis (TB) requirements^c for cattle from outside Wisconsin

As of 1/1/23, all cattle from **Texas and Michigan's TB Free Zone** (for cattle from Michigan's Modified Accredited Zone see below), regardless of sex or age are required to have a negative TB test within 60 days prior to import.

Swine

Note: *These regulations apply to all swine, including pet pigs and racing pigs.*

Swine from within Wisconsin (Ref. s. ATCP 10.32(2) and 10.87, Wis. Admin. Code) need a Wisconsin intrastate certificate of veterinary inspection (CVI or health certificate)^a:

Note: *Herd of origin means the herd in which the pigs currently reside, likely the exhibitor's herd. When pigs are purchased from a herd, the herd from which they originate is the herd of origin for the seller. Once the purchased pigs are added into the buyer's herd (even if the buyer's herd only consists of one or just a few animals), the buyer's herd becomes the new herd of origin and that herd must meet testing requirements to move pigs again.*

- Stating that the entire herd of origin was inspected on the farm within 30 days before the show and no apparent disease was present at the time of inspection^d.

- **Non-terminal Exhibitions:** All swine must have a PRRS (Porcine Reproductive and Respiratory Syndrome) and PEDv (Porcine Epidemic Diarrhea virus) test of the herd of origin within 90 days of the exhibition^c. Include test date, type, and results on the CVI. ☒ **Terminal Exhibitions:** No testing requirements.^c

Note: *Terminal Exhibitions are those at which all the swine go directly from the fair/show to the slaughtering establishment OR to a slaughter only market sale. If going to a slaughter only market sale, contact the Division of Animal Health fair inspector for required information to collect.*

Note: *If the fair intends to use a load-out facility, contact the Division of Animal Health in advance to discuss requirements that must be met.*

Swine from outside Wisconsin (Ref. s. ATCP 10.30 and 10.87, Wis. Admin. Code) need a certificate of veterinary inspection (CVI or health certificate)^a that includes the following:

- The negative results of the PRRS test^c from the swine's herd of origin conducted within 90 days prior to movement into Wisconsin including test date, type, and results.
- The negative results of the PEDv test^c from the swine's herd of origin conducted within 90 days prior to movement into Wisconsin including test date, type, and results.
- A statement that the veterinarian has inspected the entire herd of origin within the past 30 days and that no clinical signs of PRRS and PEDv or any other apparent disease was present at the time of inspection.^d
- Official individual identification (ID)^b Acceptable methods of ID for swine are^b:
 - USDA silver ear tag
 - USDA 840 ear tag, either visual or RFID
 - Breed association tattoo if the pig is a purebred and the tattoo is registered
 - An ear tag with the premises identification number and a unique identifier
 - Ear notch if the pig is a purebred and the notch is registered

Note: Microchips are not accepted as official ID for any swine including pet pigs.

Requirements are subject to change as conditions warrant. For current information and for PRRS and PEDv testing options, check

https://datcp.wi.gov/Pages/Programs_Services/SwineMovement.aspx.

Sheep and Goats

Note: *These rules do not apply to non-domestic sheep and goats. See Exotic Ruminants below.*

- Sheep and goats that go to a market or slaughter establishment after the fair should have an owner hauler statement to move from the fair to the market/slaughter establishment.

Official Identification^b includes:

- Scrapie eartags (including tags on neckstraps for animals with absent/injured ears or with official tattoos – see DATCP Website*)
- USDA 840 ear tags
- Legible breed tattoos (see DATCP Website* and NOTE below)
- Legible scrapie tattoos (see DATCP Website* and NOTE below)
- Approved microchips (Electronic Identification/EID) – There are many requirements that need to be met to use microchips including a requirement for accompanying tattoos. See DATCP Website* and NOTE below.
- **NOTE:** *All sheep and goats that go through a market or to slaughter and require Official Identification must be eartagged with Official ID. Official ID in the form of a tattoo or Electronic Implantable Identification (EID) is no longer sufficient when moving through a market or going to slaughter.*
- **NOTE:** *If a Wisconsin origin animal is neutered, less than 12 months of age, and moving through a market after the fair, the market may require Official ID in the form of an ear tag.*

*For more information on official identification and for owner hauler statements see DATCP Website at https://datcp.wi.gov/Pages/Programs_Services/OfficialID.aspx

After testing there can be no change of ownership or commingling with other birds that are not part of the flock except at other shows/fairs.

Note: Flock of origin means the flock in which the birds currently reside, likely the exhibitor's flock. Once purchased birds are added to the buyer's flock, even if the buyer's flock only consists of one or just a few birds, the buyer's flock is the flock of origin and that flock must meet NPIP or WI Tested or Associate Flock status to avoid individual bird testing for shows/fairs.

REGULATIONS FOR STATE AID FOR COUNTY AND DISTRICT FAIR

To view the full ATCP 160 document go to walworthcountyfairgrounds.com

ATCP 160.02 Premium requirements.

(1) General.

(a) The state aid authorized by s. [93.23 \(1\)](#), Stats., may be paid on net premiums paid by a fair. The department may withhold state premium aid from any fair that does not enforce animal health provisions under ch. [ATCP 10](#) that are applicable to animals exhibited at the fair. State aid will be paid only on premiums actually paid by bank check or draft.

(b) No deductions may be made from premium money won by an exhibitor. Premiums may, however, be withheld where exhibition rules established by the fair association are violated. A written statement of violation shall be submitted to the department to justify actions taken by a fair.

(c) Premiums offered shall be definite in amount. No decrease or increase in published premiums may be made because of the financial condition of the organization or for any other reason.

(e) No fair may receive state aid for a premium awarded to any exhibitor in the open division if that exhibitor entered the same exhibit in the junior division at the same fair. This paragraph does not apply if the exhibit was entered in the junior division only as part of a herd group, carcass class or performance class.

(f) No state aid will be paid on the cost of ribbons, cups, trophy prizes or entertainment contests.

(2) Premium lists.

(a) Premiums for which state aid is requested by county and district fairs shall conform with the uniform premium list and other requirements set forth in these rules. Fairs requesting state aid for net premiums shall submit to the department a printed copy of the premium list used at the fair, as required under s. [ATCP 160.92 \(3\) \(c\)](#).

(b) The officers of each fair shall mail a copy of the premium list to other associations, societies, or boards conducting a fair in Wisconsin upon request.

(c) Sections [ATCP 160.01](#) through [160.07](#) and [160.91](#) shall be published in premium books used by a fair for which state aid is requested.

(3) Entry fees.

(a) A fair may charge an exhibitor an entry fee or charge stall rents for animals, or both.

(b) Exhibitors in department 35 shall not be required to purchase an exhibitor's ticket. Any other exhibitor may be required, if no entry fee is charged, to purchase an exhibitor's season ticket at a price not to exceed that charged for a non-exhibitor's season ticket.

(4) Split fair dates.

(a) For purposes of this subsection, "split fair dates" occur when a fair organization judges exhibits or contests and pays premiums at more than one time or at more than one location during the calendar year.

(b) Except as provided under par. (c), the department may not pay state aid for a fair having split dates unless the department gives advance written approval for a split fair. The department may approve split dates based on hardship.
